**Re-scheduling:** If the learner should need to re-schedule a class, he or she needs to call prior to 24 hours of class start time so that this class may be re-scheduled. Cancellations made by the learner within 24 hours of class start times will be forfeited and will not be able to be re-scheduled. If the instructor misses a class, for whatever reason, the learner has a 100% guarantee that it will be re-scheduled, no questions asked. On the very rare occasion that it is impossible for the instructor to re-schedule a class to a later date, that class itself will be refunded.
